

IT INDUSTRY

Entry-Level & Lowest-Seniority Roles - Transition Paths - Lithuania Market Titles

Purpose: map the bottom of the IT career ladder without pretending there is one universal rank system. Titles vary by company; L1, Junior, Specialist, Technician, Assistant, Trainee and Intern can overlap.

1. How to read the ladder

Seniority is a practical market concept, not a single formal hierarchy. A “Junior IT Specialist” may perform work similar to Help Desk L1; an “L1 Support Engineer” may be called a Specialist or Analyst elsewhere. The transition arrows below show a realistic increase in scope, independence and technical depth - not mandatory promotions.

Family	Lowest / entry titles	Typical next transition	Meaning at this level
General IT	IT Intern / IT Trainee	IT Assistant / Junior IT Specialist	Learning role; basic tickets, setup, documentation, observation, simple fixes.
General IT	IT Assistant	IT Support Technician / Junior IT Specialist	Operational assistance: users, devices, software installation, asset/support tasks.
User Support	IT Support Technician	Service Desk L1 / Help Desk Technician	First-line troubleshooting of hardware, software, accounts and connectivity.
User Support	Help Desk Technician	Service Desk Analyst L1 / IT Support Specialist	Ticket intake, diagnosis, resolution of common incidents and escalation.
User Support	Service Desk Agent / Analyst L1	L2 Support / Support Engineer	Owens first-line incidents; follows procedures, documents, escalates.
User Support	L1 Support Engineer	L2 Support Engineer	More technical first-line support; structured triage and handoff to deeper engineering.
Technical Support	Technical Support Specialist	L2 Technical / Product Support	Supports a product/service; reproduces issues, reads logs, uses tickets and KBs.
Product / Application	Product Support Specialist	Application Support L2 / Implementation	Product-specific troubleshooting, configuration, customer communication.
Application Support	Application Support L1	Application Support L2 / Systems Analyst	Supports business applications; incidents, access, basic SQL/log investigation.
Desktop / Onsite	Desktop Support Technician	Senior Desktop / L2 Support	Hands-on workstation, Microsoft 365, devices, access and local network support.
Field IT	Field Support Technician	Senior Field Support / L2	On-site equipment, installation, break/fix and user support.
Operations / NOC	IT Monitoring Technician / NOC Technician L1	NOC L2 / Network Administrator	Monitors systems, alerts, incidents and escalates failures.
Systems	Junior IT Specialist	Junior / System Administrator	Broader OS, identity, endpoints, servers, backups and routine administration.
Systems	Junior System Administrator	System Administrator	Administers systems independently; changes, backups, security and reliability.
Networking	Junior Network Technician	Network Administrator / Junior Network Engineer	Switching, routing, cabling, Wi-Fi, monitoring and basic troubleshooting.
Infrastructure	Junior Infrastructure Technician	Infrastructure Engineer	Server, virtualization, storage, network and platform operations.

Family	Lowest / entry titles	Typical next transition	Meaning at this level
QA / Testing	QA Intern / Test Intern	QA Tester / Software Tester	Test execution, defect reporting, test documentation and learning QA workflow.
QA / Testing	QA Tester / Software Tester	Manual QA / Junior QA Engineer	Functional testing, test cases, defect lifecycle and increasingly independent analysis.
QA / Testing	Manual QA Tester	Junior QA Engineer / QA Engineer	Deeper test design; APIs, integrations, data, regression and possibly automation.
Software	Developer Intern	Junior Software Developer	Small coding tasks, bug fixes, reviews and supervised development.
Software	Junior Software Developer	Software Developer	Owns features with increasing design and delivery responsibility.
Data / DB	Junior Data / DB Support	Data Analyst / Database Specialist	Queries, data checks, support and simple reporting/maintenance.
Cybersecurity	Security Intern	SOC Analyst L1	Alert triage, monitoring, documentation and escalation.
Cloud / DevOps	Junior Cloud / DevOps Support	Cloud / DevOps Engineer	Monitoring, deployment support, tickets and infrastructure automation.

Practical entry-point cluster

Best-known entry labels	What they usually involve	Typical next step
Help Desk / Service Desk L1	User incidents, tickets, account/access issues, basic hardware/software and network troubleshooting.	L2 Support / Support Engineer / Systems
IT Support / Junior IT Specialist	Broader internal IT support: devices, OS, installations, users, troubleshooting.	L2 / Systems Administration
Technical / Product Support	Customer-facing technical troubleshooting for a product or service, often with logs, SQL or APIs.	L2 / Application Support / Implementation
QA Tester / Software Tester	Manual tests, test cases, defect reports, regression and validation.	Junior QA Engineer / QA Engineer
Junior Network / NOC	Monitoring, connectivity issues, switches/routers, alerts and escalation.	Network Admin / Network Engineer

2. Lithuania technology market - English ↔ Lithuanian titles

This table combines the formal Lithuanian Classification of Occupations (LPK), Lithuanian market-facing vacancy wording, and current vacancy evidence. “Official LPK title” means the occupation classification wording; “market title” means a title an employer may actually put in a vacancy. Market translations are practical equivalents, not always literal one-to-one legal titles.

English title / market wording	Lithuanian title / market wording	LPK / note
IT Support Specialist	IT pagalbos specialistas / IT palaikymo specialistas	Market wording; maps broadly to ICT user support technicians.
IT Support Technician	IT technikas / IT pagalbos technikas	Market wording; often overlaps with user support technician work.
Help Desk Technician	Pagalbos tarnybos specialistas	Market wording; usually first-line user support.
Service Desk Analyst / Agent	IT aptarnavimo / pagalbos tarnybos specialistas	Market wording; usually ticket-based first-line support.
L1 Support Engineer	L1 palaikymo inžinierius / pirmosios linijos palaikymo inžinierius	Market wording; L1 indicates first-line scope, not an official LPK seniority code.
Technical Support Specialist	Techninio palaikymo specialistas	Market wording; customer/product technical support.
IT Customer Support Specialist	IT klientų aptarnavimo specialistas	Common Lithuanian vacancy wording; see current DELSKA-type market usage.
Junior IT Specialist	Jaunesnysis IT specialistas	Common junior market title; Heston Airlines used this exact English title.
Junior Onsite IT Support Specialist	Jaunesnysis IT pagalbos specialistas / IT pagalbos specialistas vietoje	Market wording; first-level onsite support.
Application Support Analyst	Programų / taikomųjų programų palaikymo specialistas	Market wording; may include SQL, logs, incidents and user support.
IT Operations / Monitoring Technician	IT operacijų / sistemų stebėsenos technikas	Market wording; aligns conceptually with LPK 3511 operations technicians.
NOC Technician / NOC L1	NOC technikas / NOC specialistas	Market wording; monitoring/network operations; L1 is company-specific.
Computer / Network Technician	Kompiuterių tinklų ir sistemų technikas	LPK 3513 family.
Network Administrator	Tinklų administratorius	LPK 252201.
Systems Administrator	Informacinių ir ryšių technologijų sistemų administratorius	LPK 252202.
Computer Systems Administrator	Kompiuterių sistemų administratorius	LPK 252203.
Computer Network Analyst	Kompiuterių ryšių analitikas	LPK 252301.
Network Analyst	Tinklo analitikas	LPK 252302.
Computer Network Administrator	Kompiuterių tinklo administratorius	LPK 252303.
QA Tester / Software Tester	QA testuotojas / programinės įrangos testuotojas	LPK 251901 = Software tester / Programinės įrangos testuotojas.
Manual QA Tester	Rankinio testavimo specialistas / rankinio testavimo testuotojas	Market wording; generally maps to Software Tester under LPK.
QA Specialist	QA specialistas / sistemų testuotojas	Market wording; current vacancies use “Sistemų testuotojas / QA specialistas”.
QA Engineer	QA inžinierius / testavimo inžinierius	Market wording; not a separate LPK code in the cited list.
ICT Test Analyst	Informacinių ir ryšių technologijų testavimo analitikas	LPK 251904.

English title / market wording	Lithuanian title / market wording	LPK / note
Software Engineer	Inžinierius programuotojas	Work in Lithuania shortage/high-value list: code 251403.
Application Developer	Taikomųjų programų programuotojas	Work in Lithuania list: code 251401.
Database Analyst	Duomenų bazių analitikas	LPK 252101.
Database Administrator	Duomenų bazių administratorius	LPK 252102.
Database Specialist	Duomenų bazių specialistas	LPK 252103.
Security Specialist	Informacinių technologijų saugumo specialistas	Work in Lithuania list: code 252912.
Network Security Specialist	Informacinių technologijų ir ryšių saugumo specialistas	Work in Lithuania list: code 252904.
Computer Engineer	Kompiuterijos inžinierius	Work in Lithuania list: code 252906.
Electronic Equipment Technician	Elektroninės įrangos technikas	Work in Lithuania list: code 311402 - useful adjacent bridge from electronics into technical support/IT.

3. What the current Lithuania market is actually calling entry-level work

Observed vacancy / source	Title	Entry signal	Work actually described
Scale Tech / LinkedIn	IT Support (Junior) / IT Support (L1) Specialist	Explicit early-career role; students/recent graduates welcomed.	First point of contact; triage email requests; JIRA; common fixes; escalation to L2/L3; basic networking/OS; MySQL/Python useful.
Heston Airlines / LinkedIn + CVbankas	Junior IT Specialist	Entry level; 0-2 years; final-year students accepted.	Hardware diagnostics, staff technical support, troubleshooting, software/hardware installation and monitoring.
PHOENIX Business Services / LinkedIn + current repost	Junior Onsite IT Support Specialist	Junior; primary point of contact.	Windows/Microsoft 365/VPN/SharePoint, workstation setup, access control, hardware, connectivity, tickets and conference-room support.
StrongPoint / CV-Online + CVbankas	Junior IS Consultant (Call center)	Explicitly “start your career in IT”; students can fit.	POS/computer/self-checkout support by phone/email; data-transfer monitoring; remote incident solving; basic Windows/Linux; RDP/VNC.
Citco / LinkedIn	IT Junior Support Analyst	Junior support analyst.	Infrastructure support for employees; phone/email/in-person/self-service channels; incident resolution and service delivery.
CITY SERVICE / CVbankas	Sistemu testuotojas (-a) / QA specialistas (-ė)	Testing role; juniority depends on employer.	Manual testing plus automated tests; test plans/scenarios/cases; API/integration testing; AI solution quality.

What this means for an entry-level candidate

1	The lowest practical IT entry point is usually a function, not a title. Look for work involving tickets, users, basic troubleshooting, testing, monitoring, documentation, installations and escalation.
2	“Junior” and “L1” are not identical. Junior describes experience/scope; L1 usually describes support tier. A role can be junior without using L1 in the title, and an L1 role can carry a surprisingly technical title.
3	Lithuania has a formal classification layer and a vacancy-title layer. Use LPK titles for occupation mapping and CV/legal classification; use market titles when searching job boards, LinkedIn and employer sites.
4	QA and IT support are distinct entry families. QA starts with testing/defect evidence; support starts with user/system incidents. Application/product support sits between them and can bridge into systems, QA or development.
5	A strong search strategy must use title families. Search several synonyms rather than one title: IT Support, Service Desk, Help Desk, Junior IT Specialist, Technical Support, Application Support, L1 Support, QA Tester, Software Tester, Systems Tester.

4. Recommended title search matrix for Lithuania

Search family	Use these English variants	Use these Lithuanian variants / clues	Seniority signal
IT Support	IT Support; IT Support Specialist; IT Support Technician; Help Desk; Service Desk; L1 Support; Support Engineer	IT pagalba; IT palaikymas; IT specialistas; techninis palaikymas; klientų aptarnavimas	Intern / Trainee / Assistant / Junior / L1 / Specialist
Technical / Product Support	Technical Support; Product Support; Application Support; Support Analyst	Techninis palaikymas; produkto palaikymas; programų palaikymas; IT klientų aptarnavimas	Junior / L1 / Specialist / Analyst
QA	QA Tester; Manual QA; Software Tester; Test Analyst; QA Specialist; Systems Tester	Programinės įrangos testuotojas; sistemų testuotojas; QA specialistas; testavimo analitikas	Intern / Tester / Junior / Specialist
Systems / Infra	Junior System Administrator; IT Operations; Monitoring; NOC; Infrastructure Support	Jaunesnysis sistemų administratorius; sistemų administravimas; IT operacijos; stebėseną; tinklų ir sistemų technikas	Junior / Technician / L1
Networking	Network Technician; Junior Network; NOC Technician; Network Support	Tinklo technikas; kompiuterių tinklų ir sistemų technikas; tinklų palaikymas	Junior / Technician / NOC / L1
Adjacent electronics	Technical Support Engineer; Hardware Support; Field Service; Electronic Equipment Technician	Techninis palaikymas; elektroninės įrangos technikas; serviso technikas	Junior / Technician / Support

Evidence note. Formal LPK titles are classification terms. Vacancy titles are employer-specific. The PDF therefore deliberately separates “official/classification title” from “market title”. Current vacancy evidence was checked against public pages available in September 2026; vacancy status can change quickly.
